TRAFFIC ADVISORY
I-10 / RIVERSIDE AVENUE INTERCHANGE PROJECT
FULL DIRECTIONAL FREEWAY CLOSURES SCHEDULED

Rialto, CA – As part of the ongoing Riverside Avenue Interchange Project, San Bernardino Associated Governments (SANBAG), City of Rialto and Caltrans will be closing eastbound Interstate 10 at Riverside Avenue on Friday, July 22nd beginning at 11:00 pm and continuing through 7:00 am on Saturday. The purpose of this full, directional closure of the interstate is for the safe construction of the bridge girders over the eastbound lanes. Traffic will be routed around the work using the off- and on-ramps at Riverside Avenue.

The westbound lanes of Interstate 10 will be closed at Riverside Avenue from 11:00 pm on Saturday, July 23rd and continuing through Sunday at 7:00 am. The westbound closure will allow for the girder construction to continue over the westbound lanes of the interstate. Detours for this portion of the closure will also use the off- and on-ramps at Riverside Avenue.

This stage of the bridge reconstruction marks a significant milestone towards completion of the project. Demolition and reconstruction of the bridge started in late April of this year and is scheduled for completion by November. When the project is complete, motorists will enjoy nine lanes on the new bridge, three lanes on the ramps, and a wider Riverside Avenue between Valley Boulevard and the freeway.

SANBAG, the City of Rialto and Caltrans thank you for your patience and support during this improvement project. Please be aware of the construction area and always make a point to... **SLOW FOR THE CONE ZONE.**
